

ID60 DatenTresor

Article number: 775-2115-01

Short product description

Highest security for sensitive data – easy and secure

Locking and unlocking sensitive files on a virtual drive

Product description

The combination of hardware key and your individual PIN ensures maximum safety - all in one Hand.

Access to confidential files and documents on the PC / notebook via a virtually mounted drive. This drive is visible when using the ID60 USB stick and an individual PIN only. The protection is based on an secure encryption method.

The "ID60 DatenTresor" is used like a real drive. Data and even programs are automatically hidden as soon as the ID60 USB drive is unplugged.

Individual files and file structures can be easily copied to other drives. Furthermore the "ID60 DatenTresor" can be formatted at anytime.

The "ID60 DatenTresor" provides up to 50GB of encrypted data storage on your hard disk. An emergency key ensures access to the encrypted data in case of loss of the USB stick or PIN. This emergency key (PUK) is automatically generated when creating the "ID60 DatenTresor".

- * Easy installation
- * Capacity up to 50 GB (definably)
- * Encryption AES 256 Bit, Tweak 128 Bit, SHA256
- * Dimensions LWH 57 x 28 x 10 mm
- * Weight 27 gram
- * Temperature range Operation: 0°C to +70°C / Storage: -40°C to +85°C
- * Hardware encryption AES 128 Bit, 4-digit PIN, 4 PIN attempts

System requirements

Microsoft® Windows® 7 / 8 / 8.1 / 10

Connection USB 2.0 Typ A

Free disc space for the virtual drive (DatenTresor)
